ACM-Hierro Extra

agro consulting del mediterráneo s.l.

CHELATED IRON. E.1.4 (b) Regulation (EC) nº 2003/2003. E.C fertilizer

FEATURES

ACM-Hierro Extra is an iron corrector. It prevents and / or corrects iron chlorosis in all types of crops. It is a product of high stability and rapid activity. Due to its micro-dispersible granule formulation it provides a fast dilution and high solubility in water. These features give the product an excellent handling for using in fertigation or directly to the ground by injection.

The product can be used in the following ways:

- **Fertigation.** The product will be added dissolved in water drip, flood or sprinkler irrigation.
- **Injection.** Apply the product using locators or manual liquid fertilizer injectors, around the tree drip area. Afterwards perform the irrigation.
- **Other forms of application.** Directly to the ground, either alone or mixed with solid fertilizer. It is recommended a subsequent irrigation or add it with a farm work.

It is specially suitable in calcareous soils poor in iron content and high content of active lime. It can be applied to any kind of crops: fruit, citrus, grapes, vegetable, ornamental...

DOSE AND APPLICATIONS

PERENNIALS CROPS

Do apply at the beginning of spring and summer time. In **horticultural and ornamentals** apply at the beginning of its vegetative activity.

CITRUS AND FRUIT TREES

5-100 g/tree, depending on the size of trees. Distribute in several applications.

OLIVE TREE

3-35 g/tree, depending on the size of trees.

VEGETABLE AND STRAWBERRY IN FERTIGATION

Split 1kg per 10,000 liters of irrigation water.
Apply the product between 0.2 and 0.5 g/plant. Dilute the product with enough volume of water. Split the dose in several applications.

GUARANTEED RICHNESS

in % w/w

Iron (Fe) soluble in water: 6%
Iron (Fe) chelated by EDDHA: 6%
Iron (Fe) chelated by ortho-ortho EDDHA: 5,0%
pH range chelated iron stability (Fe): 3-12

RESIDUE ZERO

CAUTIONS

The recommendations and information that we provide are the result of a wide and severe test. However in its use many factors affecting out of our control may appear such as weather, preparation of broths, applications, etc. The company guarantees the composition, formulation and content. In case of doubt perform a compatibility test. User shall be liable for damage caused by lack of efficacy, toxicity, waste, etc. not to follow label instructions. Store in a dry and protected from extreme temperatures place (5 °C-35 °C). Keep out of reach of children. Stay away from food, drink and feed. In case of eyes and skin contact wash immediately with plenty of water.
