ACM-Mix

MIX OF MICRONUTRIENTS

BORON (B), COPPER (Cu), IRON (Fe), MANGANESE (Mn), MOLYBDENUM (Mo) y ZINC (Zn) E.2.4.1 Regulation (EC) no 2003/2003 EC Fertilizer (mod. 223/2012)

FEATURES

ACM-Mix is a multiple micronutrients chelated complex by 90% EDTA and 10% EDDHSA, soluble in water and specifically designed to correct major deficiencies of micronutrients in all kinds of crops.

The presence of both chelated agents gives to the product stability and efficiency of trace elements in adverse pH conditions.

It is specially suitable in case of pH water above 6 and / or alkaline soils.

DOSE AND APPLICATIONS

ACM-Mix due to its high solubility it can be applied to any localized irrigation system or as a foliar spray.

FOLIAR TREATMENTS

Apply 75 to 100 g / 100 litres of water. It is recommended not to apply it in high temperatures.

IN HORTICULTURAL CROPS IN LOCALIZED IRRIGATION

Apply 100 to 150 g / 1000 m crop and weekly. Total solution dose:
200-300 g/10,000 litres total water.

IN HYDROPONICS

Apply 25 to 30 g/m^3 in irrigation water.

SUBSTRATES

Apply 100 to 150 g/m^3 of substrate.

GUARANTEED RICHNESS in % w/w

Iron (Fe) chelated by EDTA and water soluble: 6,70%
Iron (Fe) chelated by EDDHSA and water soluble: 0,65%
Manganese (Mn) chelated by EDTA and water soluble: 3,30%
Zinc (Zn) chelated by EDTA and water soluble: 0,60%
Copper (Cu) chelated by EDTA and water soluble: 0,30%
Boron (B) water soluble: 0,70%
Molybdenum (Mo) water soluble: 0,10%
Chelated agent: EDTA and EDDHSA
pH stability range: 4-9

RESIDUE ZERO

CAUTIONS

The recommendations and information that we provide are the result of wide and severe test. However in its use many factors out of our control may appear such as weather, preparation broths, applications, ett... The company guarantees the composition, formulation and content. Use only if clearly needed. Do not overdose. It is compatible with most insecticides, fungicides and fertilizers commonly used. In case of any doubt perform a previous compatibility test. User will be responsible for damage caused by lack of efficacy, toxicity, waste, ett... not to follow total or partial label directions. Store in a dry and protected from extreme temperatures (5 °C-35 °C) place. Keep out of reach of children. Keep away from foodstuffs, beverages and feed. In case of contact with eyes and skin, wash immediately with plenty of water.
