ACM-Silicio

agro consulting del mediterráneo s.l.

LIQUID PRODUCT SILICON BASED Group 4.01.08 ORDER AAA/2564/2015, of November 27, laying amending Annexes I, II, III, IV and VI of R.D. 506/2013, of June 28, on fertilizers

FEATURES

ACM-Silicio is a product based on silicon and potassium solution which acts as a foliar fertilizer. It is composed with a high concentration in silicon (23% w/w) completely soluble, and it acts as fungicide and insecticide action. The synergies between the two nutrients give a special mode of action itself.

ACM-Silicio has the property of hardening the plant cell wall, making a protective barrier, and reducing the effects of different pests and diseases. Furthermore, this micronutrient has an important feature for its drying effect in the incidence reduction of disease the more higher content in the leaves.

Benefits:

- Increase crop resistance against abiotic pathogen, stress conditions (drought, heat and cold) and biotic agents (resistance to pests and diseases).
- It is a good solution for integrated pest management and it is an alternative to conventional treatments of fungicides and insecticides.
- The use is recommended to prevent mildew, botrytis and rusts.
- It also presents an effective action against whiteflies, mites and aphids. The typical manufacturing process can make a completely soluble product.

ACM-Silicio is especially recommended in foliar application. It is advisable to start treatment in stressful early situations or a preventive control strategy. Its higher advisable to wet the full foliar crop area.

DOSE AND APPLICATIONS

VEGETABLE CROPS

Dose:
1 - 2 L/Ha.
Start a week after transplanting and repeat every 7-10 days.

STRAWBERRY

Dose:
1 L/Ha.
Start during the plantation and repeat weekly.

VINEYARD

Dose:
1 L/Ha.
Start at the beginning of the vegetative state and repeat weekly.

GUARANTEED RICHNESS in % w/w

Silicon (SiO_2): 23%
Potassium Oxide (K_2O): 10%
pH: 11,2
Density: 1,2 g/cm^3
Presentation: Soluble Transparent Liquid

RESIDUE ZERO

CAUTIONS

The recommendations and information provided are the result of wide and severe test. , Though the use may appear many factors affecting our control (weather, preparation of broths, applications, etc.). The company guarantees the composition, formulation and content. Compatible with all fertilizers and agrochemical products normally used, except with copper-based fungicides, although it is recommended that before trying a mixture or consult the authorized technical staff. The user is responsible for the damage caused (fault of efficacy, toxicity, waste, etc.), for total or partial failure of the label. Store in a dry and protected from extreme temperatures (5 °C-35 °C) place. Keep out of reach of children. Stay away from food, drink and feed. In case of contact with eyes and skin, wash immediately with plenty of water.
